

John Cook Kitchens

Years in Business: 51 • License #CT-38754

SINCE 1973, JOHN COOK KITCHENS HAS BEEN A LOCAL FAVORITE FOR KITCHEN AND BATH REMODELING.

With quality designs and top-notch customer service, the company has earned numerous industry honors. Schedule an appointment at the showroom, where experienced designers can turn your ideas into reality with products for all budgets.

Notable Project:

John Cook Kitchens received the BIA-Hawaii Phil Zweedyk Grand Award and NKBA's Highest Technical Award for this exquisite Dowsett Estate renovation. The project involved extensive planning and meticulous detailing. Beautiful features include heirloom painted and glazed cabinets, two different quartz countertops, tiled backsplashes, and a decorative formal front entry.

Top Three Design Tips:

1. Islands are great for adding storage, countertop space, appliances, and seating. Define the purpose and choose the right shape. Leave a minimum of 42"–48" of space between the island and perimeter counters.
2. Gray color schemes are popular in Hawaii. An experienced designer can balance warm and cool tones for maximum effect.
3. A desk is a great way to add storage for both kitchen and office items. It's the perfect spot for kids to do homework or to catch up on some computer work.
